

Glebe Island Silo Strengthening Project

This is a photographic record of the silos at the Cement Australia silos at Glebe Island as at the 25th November 2019.

There are 12 silos numbering 1210 to 1215 and 1410 to 1415 involved in this project. The work will involve cutting an access to each of the six silos 1210 to 1215 which will then be re-instated after the work on these silos has been completed.

The current condition of these silos is depicted below:

Silo 1210

Silo 1211

Silo 1212 & In-load pipes

Silo 1212 & In-load pipes

Silo 1213 & 1214

Silo 1215

Silo 1215

Silos 1215 & 1415

Silos 1212, 1213, 1214 & 1215

The silos on the south eastern side of the silos (1410 to 1415) do not require a penetration for access on the outer wall of the silos. The Olympic murals will not be touched.

Silos 1415, 1414 & 1413

Silos 1412, 1411 & 1410
