PROSTRENGTH® RAPID SET CONCRETE

When mixed to directions and cured adequately, the product is capable of:

- ✓ Combined **rapid setting** and **fast strength gain**
- ✓ **Twice as strong** as standard Rapid Set Concrete

Suitable for around the home and building site, concrete footings for professional fencing, gates and road sign posts, retaining walls, sporting grounds equipment that demand high early strength and rapid setting.

Compressive Strength Maturity

*40MPa – When tested using Australian Standard Methods (AS1012, Methods 8.1 & 9), this product will achieve up to 40MPa compressive strength at 28 days.

PROFESSIONAL FENCING

LOAD BEARING POSTS

RETAINING WALLS

SIGN INSTALLATION

Coverage:

Approximately 110 x 20kg bags are required per cubic metre.

Limitations:

- Concrete is not recommended for use with aluminium posts or poles unless these are primed or sealed according to the post manufacturers' recommendation.
- Extreme temperatures will impact set time of PROStrength® Rapid Set Concrete. Not recommended for use below 10°C.

Tips:

- It is important that you are prepared to complete the project quickly as this product has fast setting properties.
- When using for posts, pre wet the hole if dry.
- Hot temperatures will impact set times, avoid working in direct sunlight.
- Clean all tools and equipment with water without delay after use.
